

UNICON SOLUTIONS

GENERIC ICT MANAGEMENT

HOW TO COPE WITH TEMPORARY ICT NEEDS

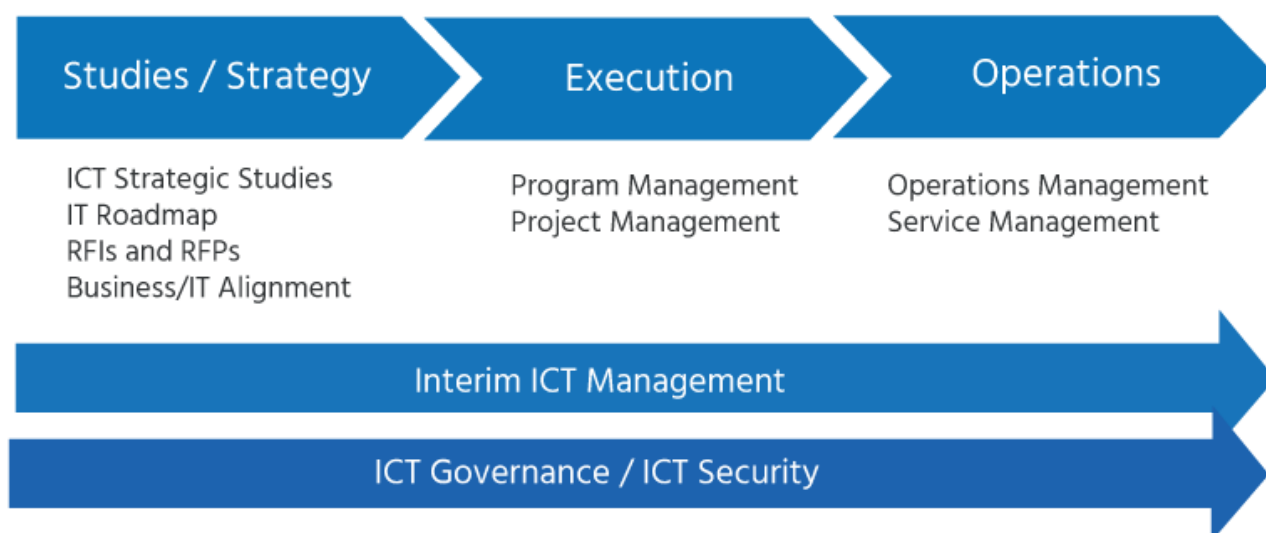

In today's ICT landscape, CIO's and IT managers are facing numerous challenges that can be turned into opportunities when tackled with a correct strategy and an efficient approach.

Unicon Solutions has the expertise to offer high-level and independent consulting to support the ICT challenges in a company. A number of highly experienced profiles are ready to fill the gaps on a temporary base in your organization or handle temporary increases of workload in all ICT leadership positions.

We can provide profiles such as:

- CIO's**
- Operations or Applications managers**
- Experienced Technology or Enterprise Architects**
- PMO managers**
- Project managers or team leaders**
- Support and leadership on RFI, and RFP processes**

Our consultants have a broad range of skills and experience.
