

UNICON SOLUTIONS

QUICK SCAN & DIGITAL ROADMAP

HOW TO UNDERSTAND WHERE YOU ARE AND HOW TO PROCEED

It is essential to understand our “AS IS”. What are our strengths & weaknesses. What needs to be done to improve and move forward ? This service will result in a clear “AS IS” dashboard with recommendations for improvement. A digital roadmap will take the “AS IS” as a baseline for the path ahead.

Unicon Solutions knows that it is critical to understand how we are doing today. A “QUICK SCAN” will provide you with a clear dashboard overview of the key aspects of your digital maturity. It will include some key recommendations and services that need to be sorted out.

A DIGITAL ROADMAP can be defined based on the outcomes of the QUICK SCAN. It will be a realistic path forward with milestones, a high level scope and an indicative budget.

Unicon Solutions will be able to provide all services from the first insight until the final delivery.

QUICK SCAN : “An understandable AS IS dashboard”

In a few days

AS IS Dashboards with recommendations
